

SUMMARY

Highly motivated third-year Electronics and Telecommunication (EXTC) engineering student, passionate about exploring innovative technologies and problem-solving in the fields of electronics and communication systems. With hands-on experience in circuit design, simulation tools, and programming languages like C and Python, I aim to bridge theoretical knowledge with practical application. Eager to contribute to projects and internships that allow me to enhance my skills, I am continuously learning to stay updated with the latest advancements in telecommunications and electronics
